13 October 2022

Dear MEP/Partner

WORLD SIGHT DAY 13 OCTOBER 2022

Today is World Sight Day with the theme 'Love your Eyes'.

As you know, in Europe we are slowly making progress with improving eye health and eliminating avoidable blindness for individuals and populations. However, with all the other worries people now have – cost of living, fuel poverty, war in Ukraine, Covid – it is easy to let regular eye examinations slip down the agenda – hence our reminder 'World Sight Day' tweet below.

Happy World Sight Day 2022! At #ECV, we are beating sight loss for individuals through regular sight testing. Let's not slip back. Ensure you have regular eye examinations as advised by your eye care professional. #LoveYourEyes.

As always, we would be very grateful if you would retweet to show your support for good eye health across Europe on this important international day.

With best wishes as ever

David Hewlett
President
European Coalition for Vision
